

Swivelling castors 01

Hardware containers 02

Focus C4

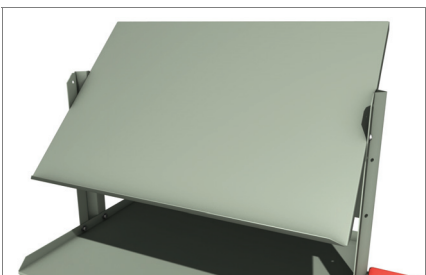

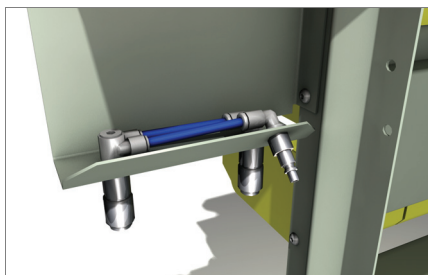

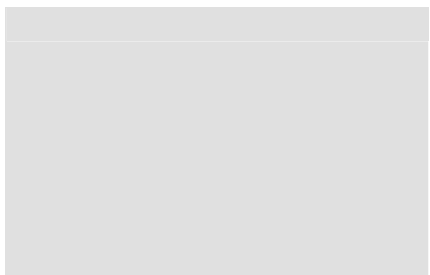

Assembly service trolley

A correct flow of materials, whether semi-finished or finished products, or parts in the assembly phase, plays an important role in rationalizing and optimizing the production cycle. The Emmegi Logistics line offers companies a concrete solution to all storage, handling and assembly problems. Focus C4 is a trolley for holding accessories, small hardware parts and tools for assembly stations.

Focus C4

Assembly service trolley

01 Swivelling castors

The trolley has 4 swivelling castors with brakes which ensure great mobility and easy handling. The brakes enable it to be locked in position in the various work areas.

02 Hardware containers

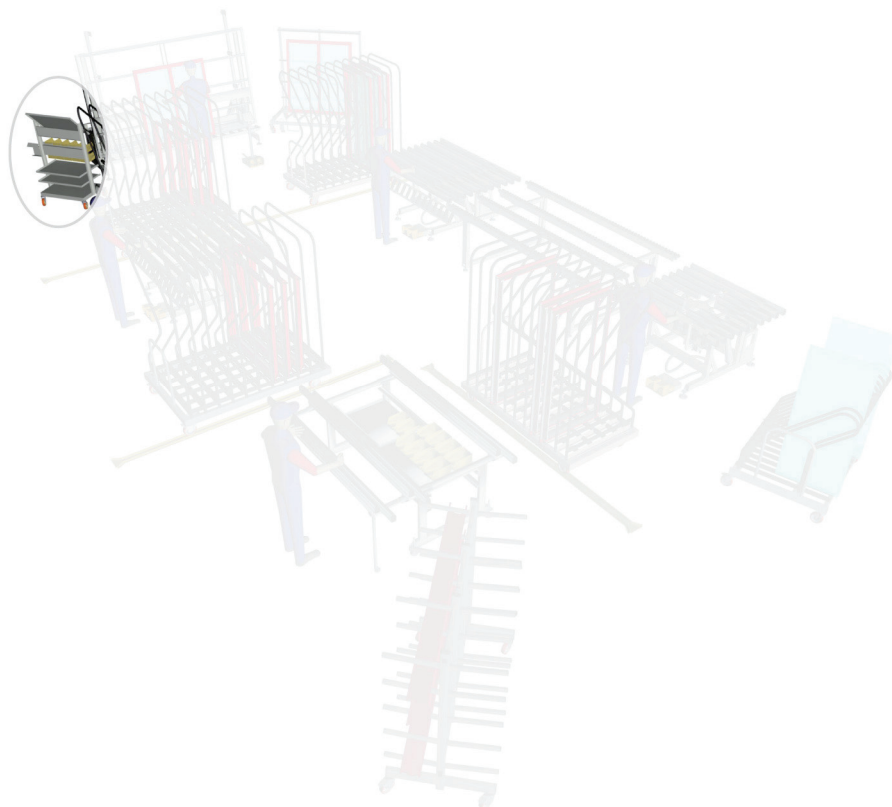

These units provide a set of handy boxes for arranging small parts of hardware simply and tidily so that all items can be readily found .

03 Pneumatic system

Quick-connect couplings ensure easy control of the compressed air supply.

04 Supporting surface with desk

The tilting contact surface has a desk for holding the production lists.

TECHNICAL CHARACTERISTICS

Desk / Tool and accessory shelf

Modular structure

Tool holders for pneumatic drill and screwing tool
